### KING EDWARD WORRIED.

Fears That He May Yet Fail to be Crowned.

New York, July 12.—A cable to the Sun from London says: King Edward's case continues to be a marvel to his physicians, and his wonderful recuperative powers have astonished all medical men. They regard the decision for an early date for the coronation as rash, nevertheless, and argue that such a course would never be allowed in the case of a private patient.

The fact is that they fail to understand that the chief reason for the King's physicians' consent to an early ceremony is that this is the only cure for a superstition which is preying upon his majesty's mind. His fear, which amounts almost to a belief, that he will never be crowned is seriously affecting the King, and his medical advisers consider that the physical risk of the ceremony a month hence is less than the possible consequences of longer worry over this subject.

It is now considered that the ceremony at Westminster Abbey can be condensed to an hour and the physical exertion involved reduced to a mere trifle. Immediately after the ceremony the King will go for a long stay on the royal yacht or to a quiet resort until his strength has been fully restored. Whether there is any truth in the persistent reports of latent constitutional trouble, the world is not permitted to know.

London, July 12.—The announcement that the coronation of King Edward will probably occur between August 8th and August 12th has caused a hasty rearrangement of plans in all directions. Visits to the country and to the Continent have been canceled, and the season has been automatically lengthened to the midst of August.

### TROUBLE THREATENED.

Troops Dispatched to Bring in a Prominent Chief for Trial.

Pretoria, July 10.—There is some uneasiness here regarding the attitude of the Basutos. In consequence of supposed treachery during the war, Joel, one of their prominent chiefs, has been summoned to Maeseru, the capital of a military district of Basutoland, to stand trial on the charge of high treason. The paramount chief, Lerothodi, is likely to support Joel in the event of the latter's refusal to obey the summons. Troops have been dispatched to the frontier.

### Chicago Strike Over.

Chicago, July 9.—The strike of the 9000 freight handlers is virtually settled. Meetings of the strikers will be held tomorrow to ratify the action taken tonight by President Curran of the order, but inasmuch as he stated tonight, after a conference with the general managers of the railroads, that he had agreed to their terms because the majority of his men were "going back on him," there is little doubt the terms will be accepted by the mass meeting of the strikers tomorrow.

### Pelee Again Active.

Paris, July 12.—The Colonial Ministry has issued the following: "A fresh eruption of Mont Pelee, Martinique, occurred during the morning of July 11th. It was quite as violent as the one of the previous day and was marked by loud detonations, followed by showers of stone and cinders, which fell on the communes of Basse Pointe, Morne Rouge and Fond St. Denis. The population remained calm. There was no loss of life.

### SALISBURY RESIGNS.

Balfour Becomes Prime Minister in British Cabinet.

England has a new Premier. Lord Salisbury has resigned and the Right Hon. A. J. Balfour holds the office in his stead.

The Salisbury family, limited, notorious for selfishness and nepotism, retains control of the British government despite the resignation of the head of the family, Lord Salisbury, of the Premiership. Salisbury, in retiring, characteristically nominated Balfour, his nephew, as his successor. Balfour's succession to his uncle's post has postponed if it does not utterly destroy Mr. Chamberlain's ambition to be Premier.

Chamberlain is reported tonight to be bitterly disappointed at Balfour's preferment, while his political followers are indignant. Chamberlain's hope for the Premiership was based on succeeding Salisbury, for he is getting old and cannot expect to outlast a vigorous ascetic like Balfour, who is two decades younger.

The kingdom, regardless of politics, expected and desired that Chamberlain should succeed Salisbury, but the populace was not considered by the extreme selfishness of the Cecil family, limited, and its selfish monopolization of the greatest posts in the government. Chamberlain is a commoner, not a man of the narrowing governing class; nevertheless the masses expected and desired him to succeed Salisbury, because all recognize him to be the strongest man in the present ministry—the man to whom the late disgraceful war was due, because his policy was maintained unflinchingly to the end and succeeded.

### Republicans Scared.

Washington, July 13.—The Anti-Trust League purposes to follow up its exposure of Attorney General Knox in the matter of his refusal to round up the Eastern Railway Association.

The league recently addressed an open letter to the President in which it charged that Mr. Knox had been put in possession of a case against the association and did not act. One of the officials of the league said today that the open letter demanded a reply, and that it was scarcely credible that one would not be ordered by the President.

Had Attorney-General Knox proceeded against the association he would have been able to exercise great effect on the coal strike. Vigorous action might have induced the railroads to assist at least in settling the affair by arbitration. The opportunity still exists.

The open letter has admittedly attracted the attention of Republican politicians the country over. The campaign on this line is intended to show the hypocrisy of Republican professions of opposition to trusts, and the expose is causing a great flurry among those Republicans responsible for the conduct of the Congressional campaign now on.

### Miners Entombed.

Johnstown (Pa.), July 11.—At 2:15 o'clock this morning General Manager Moore, who, with Superintendent Robinson, had penetrated to a considerable distance in the Klondike mine, had reached a telephone station and notified the men at the main entrance that he had recovered fifty-three bodies up to that time, and he had only been in the "right" rooms. From the brief report it was understood that Moore had gone as far as he could without endangering his life from fire damp, and had decided to go to the Mill Creek entry from there without further search.

### THE PRIAR LANDS.

Pope Leo Anxious to Avoid Any Ill Feeling.

Rome, July 13.—This morning Pope Leo received Cardinals Rampolla, Gotti, Vives, Steinhuber and Vannutelli and conferred with them two hours on the Philippine question. The Pope expressed a desire to avoid any conflict and urged the cardinals to negotiate in a conciliatory mood.

The genesis of the interchange of notes between Judge Taft, acting for the United States, and the commission of cardinals acting for the Vatican is as follows:

Governor Taft presented on June 11th his first proposals to the cardinal's commission. These were exclusively businesslike. The proposals were as follows:

First, to ascertain the valuation of the real estate belonging to the religious orders in the Philippines; second, that America shall purchase said property; third, that the Catholic schools in the Philippines be administered according to American laws, with equal treatment to all religions; fourth, that the Spanish monks quit the islands.

To this the commission of cardinals replied that the interests of the monks were insufficiently guarded, and therefore they made counter proposals, including the following:

That America recognize the Catholic Church schools and that they continue to be managed by the monks; that the monks be allowed to remain or leave at their option.

### The Portland Safe.

Seattle, July 13.—The steamer Portland, which was carried by the ice through Bering straits and into the Arctic and imprisoned in the floes, is said to have reached St. Michael July 3d.—Her passengers and crew were well, but the cargo and vessel were injured.

Such is the report received tonight in a special dispatch from Dawson. The news appears to have been wired from Nome to Nulato, on the Yukon, conveyed then up the river to Eagle City by the steamer Sarah and from that point sent by telegraph to the Dawson agent of the Northern Commercial Company, which operates the Portland and also the Sarah.

### New Chinese Minister.

Pekin, July 13.—Sir Liang Chen Tung, a distinguished scholar and diplomat, has been appointed to succeed Wu Ting Fang as China's minister to the United States. His appointment has been favorably received by the American residents here, with whom he is a prime favorite.

New ministers to Russia, France and Italy have also been named, and it is significant that none of them has held any important office or is of higher grade than the blue button rank. This fact is cited as proof that the diplomatic service continues to hold a comparatively low place in the esteem of the Dowager Empress.

### King Progressing Well.

London, July 9.—King Edward's progress is reported tonight as uninterruptedly favorable. His majesty lies on a movable couch most of the day. Some of his physicians are still in constant attendance upon him. It was announced this afternoon that it was his majesty's present intention to be taken on board the royal yacht early next week.

### Work on Wireless Telephony.

Berlin, July 12.—Ernest Ruhmer, the physicist, has invented a system of wireless telephony. His experiments have been successful over a distance of three blocks. His experiment acts on the principle of the transformation of light waves to sound waves by using a searchlight and a microphone.
